Component list

Illustration	Name	Qty	Illustration	Name	Qty
	Basket	2		Long pin	2
	Bearing support	2		Short tube	1
	Long tube	1		Allen key	1
	Self tapping screw	10			

Instructions

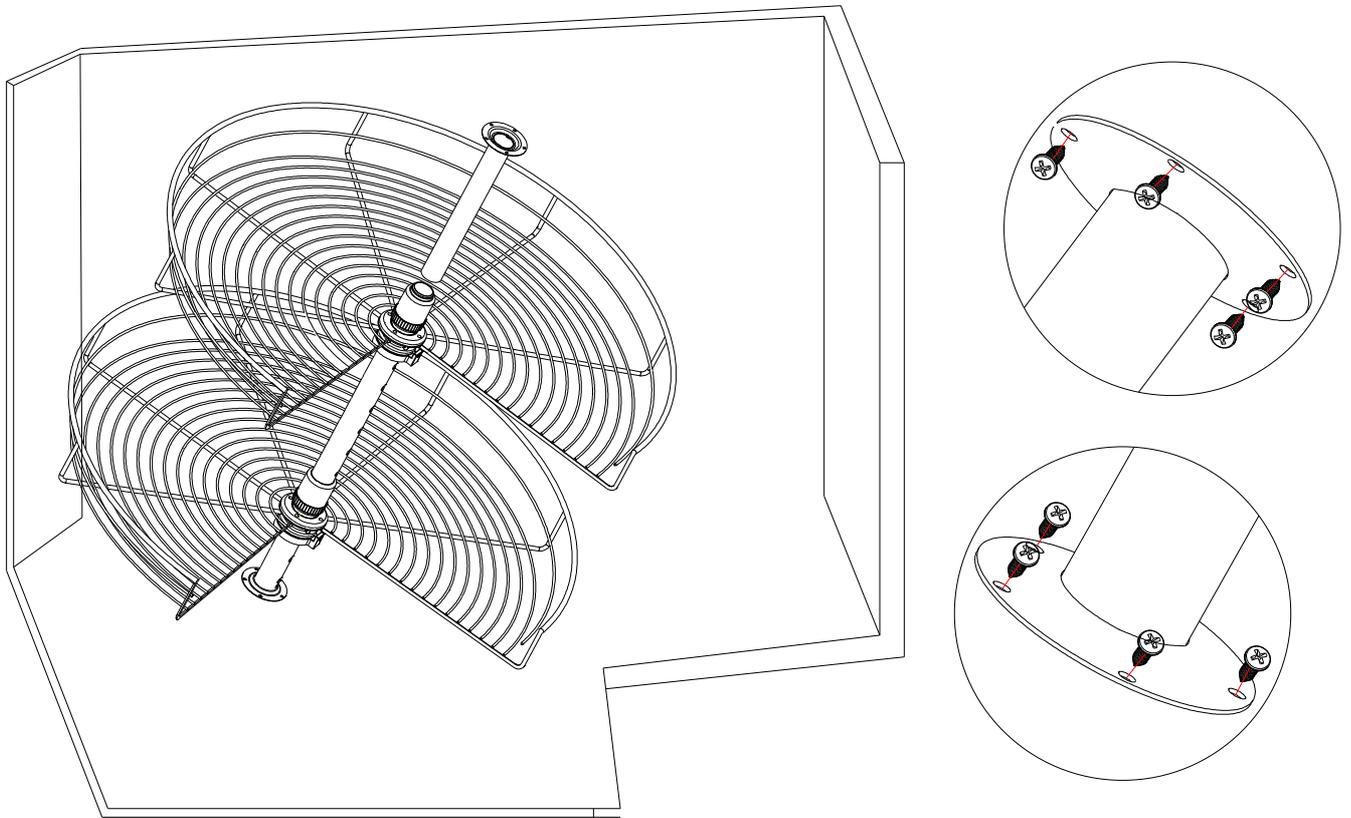

Assemble basket with plastic parts.

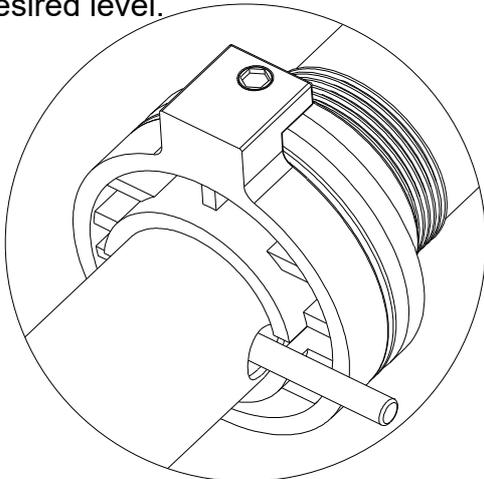

Screw on with moderate intensity / don't screw on tight.

Instructions (ctd.)

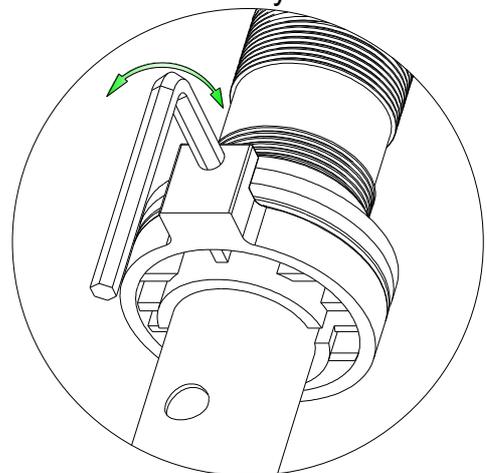

1. Insert long pins into the long tube at desired bottom basket height.
2. Slide on the bearing supports and the assembled bottom basket. Repeat for top.
3. Slide in the short tube, lock it by tighten hex bolt.
4. Install into cabinet.

To adjust the position of basket, insert pin at desired level.

To adjust the rotation strength, tighten hex bolt with Allen key.
